At 9 AM saw a whale fining off shore. We
went down and fasten a boat from the
fasten and say get him up alive blood. The
whale, still right, went up almost fully
and then and when he continued
so finely he did and sunk up in the rips
in the channel it was very deep and
more constant the schooner in the channel close to
the shore but the current took her there the
on bottom and when from schooner to out and up
about. At this time we were in heavy
fog we didn't anticipate anything dangerous till the
bar but jumped back 2 miles from shore when
we saw at last a boat from the schooner with a boat. At 8
9 in the evening the schooner boat started through
the fog and did not see the schooner came back all on
8 miles in our boat is a schooner that was at
last arrived about the boat at 9 o'clock. At
they got underway and went out in the channel
to cruise for our boats but saw nothing.

saw the 12 o'clock Capt got closed to several
times. Better part blowing strong.

Chap. Tide Island, Nov.

Comments on Monday Aug⁹
Having shown and heard I could no other
except this afternoon, it was seen given in
to them again. Should show it again
for the put see as well as the rest,
between 8 & 10.

Remarks on Tuesday. The
blowing a gale, it rained from midnight
midnight, fresh breeze at daylight, other
hand as usual. Employed the forenoon in
Imperial

[illegible]

Olmsted on Thursday, June 10th.
 I went out at 3 a watch, when I
 at 4.30 saw a boat all alone in the sea. We
 but might be well stopped above 10 miles to the
 our boat, at 5.15 we saw a very small boat
 the boat was again at 5.45 at daylight
 saw her again, at breakfast and then I
 of the boat, of her to be off, and the other
 and she lies on bottom now in 25 fath of water.

Cape Verde Islands

1866

Remarks on Saturday May 12th

Fresh breeze, commenced to catch our men into the Whales, but the current was so strong was impossible, as we had no rig to catch it. At daylight sent a boat to observe the men at the Whales. At 4 P.M. went down to make our men effort to catch our men, passed the line while passing light, so we gave it up and went aboard, it was hard, and was a great disappointment to us.

Remarks on Sunday May 13th

One whale taken on Sunday. The third whale taken on Sunday. It is to be taken on to him and save what he can. Perhaps 15 or 20 bbls. Employed at mining blubber from the calf. Fresh breeze, passed the line at daylight, called all hands, but the part saw a whale going south.

Remarks on Monday May 14th

Fresh wind, we've give up ever seeing that whale again. Looked sharp for it all day. Two school whales went down for them but they were going quick. At daylight started the first and holed out the calf.

Remarks on Tuesday May 15th

Fresh wind, got underway and stood on to the line. At 3 P.M. saw whale mining. Lowered two boats to catch faster, got him along side at sundown. At daylight called all hands and commenced cutting, at 12 P.M. again underway.

Remarks on Wednesday May 16th

At hands employed at cutting blubber, a whale. At daylight holed out and went on. Along shore saw nothing.

Cape Verde Islands

Remarks on Thursday May 11th

Steamed boat faster to a boat of captain
Peters the boat arrived in the morning but the

to S.E. pleasant fine, squally. Midnight
calm. At daybreak found ourselves among
a shoal of small Whales, they went up across
the wake and rolled to N.W. going quick and
easily, lowered and chased them and, to go on
there being no wind it was almost impossible
it's so still they could hear a boat long distance
tried several times to get on, chased them out of
the vessel and gave it up.
